

# INDOOR PANEL ANTENNA

## 7dBi • 698 - 2700 MHz

FIP2001

### Product Features

- Wide bandwidth
- High gain
- Easy indoor installation
- Suitable for GSM/CDMA cellular communication system and 2.4GHz WLAN applications

### Applications

- Indoor coverage

Indoor Panel Antenna

### Specification

### Value

|                      |                                  |
|----------------------|----------------------------------|
| Frequency Range      | 698-960 MHz / 1710-2700 MHz      |
| Gain                 | 7 dBi                            |
| Vertical Beamwidth   | 73 / 60°                         |
| Horizontal Beamwidth | 80 / 65°                         |
| VSWR                 | <1.8                             |
| Nominal Impedance    | 50 Ω                             |
| PIM                  | <140dBc@2x 33dBm                 |
| F/B Ratio            | > 12db / 18db                    |
| Polarization         | Vertical                         |
| Max Power            | 50 W                             |
| Connector            | SMA-Male                         |
| Dimension            | 7.48x6.5x2.16 in • 190x165x55 mm |
| Weight               | 0.88 lbs • 0.4 kg                |
